EDUCATION

Chandigarh University <i>B.E. Computer Science and Engineering</i>	2022-2026 <i>Current GPA: 7.96</i>
RPS Public School <i>Intermediate CBSE</i>	2022 <i>Score: 90%</i>
RPS Public School <i>Matriculation CBSE</i>	2020 <i>Score: 89%</i>

COURSEWORK

Courses: Object-Oriented Programming, Data Structures & Algorithms, Discrete Math, Physics

SKILLS

Languages: C++, JavaScript, HTML/CSS
Frameworks: React, Node.js, Express.js, Bootstrap, Tailwind CSS
Tools: Git/GitHub, Docker, Postman, VS Code, MongoDB Compass/Shell
Libraries: Mongoose, Axios, Phaser.js, Web3.js, Hardhat, IPFS, Bcrypt.js

PROJECTS

- VOTA** | *Python, Flutter* Jan. 2025–May 2025
- Developed a Remote Control Execution of various Windows operations like Volume control, Shut down, and many more.
 - Used PyAudio, Speech Recognition libraries to implement voice based execution of almost all operations.
 - Customized commands in order to make frequent operations even faster.
- HISABB** | *Flutter Application* Feb 2025–Apr 2025
- Developing a comprehensive solution tailored for merchants, integrating multiple aspects of their business operations into a single platform.
 - Conducting in-depth business analysis to ensure all operational scenarios are addressed efficiently.
 - Incorporating AI-based analytics to provide actionable insights on monthly sales performance, helping businesses optimize strategies and achieve a 10% growth in revenue.
- LearnX** (<https://learn-x-gray.vercel.app>) | *React.js, Node.js, Express.js, MongoDB* Nov. 2024–Feb. 2025
- Designed and implemented a modular learning management system (LMS) to empower educators in delivering customized courses to students.
 - Integrated role-based authentication and to enhance security, and optimized backend operations for seamless database CRUD operations.
- NFT Bridge** | *React, Web3.js, Hardhat* Aug 2024–Dec 2024
- Created a robust platform leveraging React to batch mint NFTs and seamlessly bridge them across blockchain networks.
 - Engineered smart contracts using blockchain tools to enhance efficiency, achieving a 25% reduction in transaction costs and 300% more minting.

TRAINING

Metacrafters | *Member* June. 2024 – July 2024
Completed 2 month Training in **Blockchain Development** by Metacrafter.com and Chandigarh University

ACHIEVEMENTS

Block Chain Advanced
Build 6+ mini-project landing a Scholarship of \$175
